ZIAUR RAHAMAN

Blue Team & SOC Enthusiast | IoT Developer

2404154@kiit.ac.in | +91 9681819189 | Kolkata, West Bengal | linkedin.com/in/ziaur-rahaman-524588322 | github.com/blup-blup-spec

PROFESSIONAL SUMMARY

Currently pursuing B.Tech in Electronics & Telecommunication Engineering at KIIT University , with a strong passion for cybersecurity,IOT, threat detection, and network defense. Hands-on experience in honeypot deployment, SIEM integration, firewall penetration testing, Linux hardening, and embedded IoT systems — all through self-initiated and team projects. . Eagerly looking to apply practical skills in real-world applications and seeking an internship opportunity to grow and contribute.

TECHNICAL SKILLS

Security & Monitoring: Wazuh SIEM, Cowrie Honeypot, Nmap, Wireshark, Burp Suite, Fail2ban, UFW, iptables NAT, Metasploit (basic), VirusTotal, OSINT, Log Analysis

Blue Team / SOC: SIEM (Wazuh 4.7.0), Honeypot Architecture, Identity & Access Management, MFA, Least Privilege, Incident Response, Threat Detection, MITRE ATT&CK

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, VLANs, ACLs, SSH Tunneling, Subnetting, Cisco Packet Tracer

Programming & Tools: Python, C, Bash Scripting, Docker, Git/GitHub, Firebase, ESP32, Arduino

Operating Systems: Kali Linux, Ubuntu, Raspberry Pi OS, Windows

Generative AI & MCP: Claude AI (Anthropic), Gemini API, Kimi2.5, Prompt Engineering, MCP (Model Context Protocol), OpenClaw automation

EDUCATION

B.Tech – Electronics & Telecommunication Engineering *Aug 2024 – Jun 2028*

KIIT University, Bhubaneswar | CGPA: 7.89 | Active Member – K-100 Cybersecurity Society

Relevant Coursework: Digital & Analog Electronics, Microprocessors & Embedded Systems, Communication Systems & Techniques

Class XII – WBCHSE | 86.4% (432/500) | 2022 *Class X – WBBSE | 88.6% (620/700) | 2020*

PROJECTS

Cowrie SSH Honeypot + Wazuh SIEM Detection Lab *Raspberry Pi 4 + Windows 11 + Kali Linux | 2026*

- Deployed Cowrie SSH honeypot on Raspberry Pi OS Lite; configured iptables NAT to silently redirect port 22 to 2223 — completely invisible to attackers.
- Integrated Wazuh 4.7.0 via Docker on Windows 11; wrote custom XML detection rules (Rule 100001–100004) triggering Level 10–15 alerts for brute force, failed logins, honeypot entry, and command execution.
- Simulated real-world attacks from Kali Linux using Hydra, Nmap, and SSH — generated 76 alerts including 27 at critical level (12+) with live MITRE ATT&CK mapping in Wazuh dashboard.

Linux Firewall Penetration Testing & Hardening Lab *Kali Linux vs Ubuntu | 2026*

- Simulated attacker-vs-defender scenario; ran Nmap baseline scan identifying open SSH & HTTP ports, then enabled UFW with default-deny policy.
- Tested all Nmap evasion techniques (SYN stealth, FIN/XMAS/NULL, packet fragmentation, source port spoofing, slow timing) — none bypassed UFW. Achieved SSH tunnel bypass (8080 to 80); deployed Fail2ban

Campus Network Design & Security – Cisco Packet Tracer *Self-Initiated | 2025*

- Designed multi-building campus network: VLAN segmentation, DHCP automation, ACLs, wireless security, and SSH tunneling for remote access.

LL1.0 – 12-DOF Quadruped Disaster Surveillance Robot *KIIT Project Expo | 3rd Place Kreativity 3.0 | 2025*

- Built 12-DOF quadruped with inverse kinematics gait, ~50ms WebSocket control, voice commands, and CV-based detection of humans, potholes, and vehicles.
- Architected secure WebSocket layer; roadmap includes Wazuh+UFW hardening, LiDAR-SLAM mapping, FPV streaming, and LoRa for GPS-denied disaster zones.

IoT Smart Wheelchair – Health Monitoring & Navigation *2nd Place | Nov 2025*

- Dual ESP32 via ESP-NOW (<10ms latency); Firebase + web dashboard for live health monitoring; MPU6050 IMU for fall detection & safety alerts.

CERTIFICATIONS

- Introduction to Cybersecurity – Cisco Networking Academy (Jan 2026, Credly Verified)
- Networking Basics – Cisco Networking Academy (Jan 2026, Credly Verified)
- Linux – GeeksforGeeks

ACHIEVEMENTS & ACTIVITIES

- 2nd Place – KIIT Project Expo, Cyber-Physical Applications in Industrial IoT, School of Electrical Engineering, KIIT (Nov 2025)
- 3rd Place – Kreativity 3.0 with LL1.0 Quadruped Disaster Surveillance Robot (live robotics demonstration)
- K-100 Cybersecurity Society, KIIT – Active member; CTF challenges, Blue Team workshops, SOC-focused learning sessions
- Languages: English (Proficient) | Hindi (Proficient) | Bengali (Native)
